

MODULAR WIRING SYSTEMS LIMITED

Environmental Policy

Modular Wiring Systems Ltd. is committed to striving to minimise its' adverse environmental effects, without compromising the high product standards expected by our customers, by developing and operating to an accredited Environmental Management System to ensure continual improvement in our environmental performance.

Also, Modular Wiring Systems Ltd. is committed to;

Developing a sense of awareness and responsibility for the environment amongst employees, at all levels, and ensuring that contractors maintain the standards expected from our employees.

Identifying the significant environmental effects from processes for existing and new operations.

Striving to operate in a manner designed to minimise the use of natural resources and release of emissions to air, land and water from our processes and, where possible, eliminate consumption of resources and prevent pollution from processes.

Ensuring that all current and future relevant legislation is met or exceeded.

Ensuring that procedures are in place to respond to abnormal occurrences and emergency situations to minimise the impact on the environment and consult with the relevant authorities.

Seeking to improve supplier's environmental performance and customer handling and disposal of our product.

Monitoring the Environmental Management System to ensure that objectives and targets are met and to ensure compliance with this policy, by review and audit.

Ensuring open channels of communication between employees, customers, regulatory bodies and other interested parties with regard to environmental protection.

The employees Modular Wiring Systems Ltd are aware of the environmental effect of all manufacturing processes, and feel that operating an Environmental Management System will enable them to control and minimise these effects.
